

Jan 4, 2011

Dear Valued Customers and Suppliers:

The New Multek - Endless Innovation Creates Change for Tomorrow.

I'm writing to you today to share the exciting change to Multek's identity, specifically its logo. I am happy to inform you that we have officially unveiled our new corporate logo and identity. Multek will immediately begin using this new corporate logo, which is above on this letterhead and on all internal and external communications material. All Multek affiliates, with the exception of Sheldahl, will use the new logo.

Multek was founded in 1978 and this is our first corporate identity update. We believe the phrase "endless innovation creates change for tomorrow" captures our dedicated focus on developing the best technology solutions for our customers. The three connected planes in the new logo create a three dimensional illustration, which symbolizes the connectivity and partnership with our customers, suppliers, and the industry. The three planes in our new logo also represent Multek's dynamic portfolio of services, our one-stop interconnect solutions and Multek's competitive differentiation that supports our customer's market growth. The vibrant blues represent our innovative ideas and the new design reflects Multek's continuous enhancement to support growing customer market requirements.

Background of Multek's New Identity

Over the years, Multek has successfully evolved and diversified its offering by creating specialized business units that serve a range of customer requirements in the interconnect industry. Not only have we enhanced our core competencies for printed circuit boards, we have also expanded into new product areas. Today, Multek provides the most diversified interconnect solutions for product categories such as PCBs, FPCs, rigid-flex, flexible circuit assembly, displays, touch solutions, optical and electronic materials, solar panels and printed electronics.

All of these business transformations resulted in the need to update our corporate identity to better demonstrate Multek's broad range of solutions for our customers across multiple markets.

We thank you for your continued support. If you need additional information regarding this notification, please do not hesitate to contact our Business Development Manager or Customer Service Representative. We continue to diligently focus on providing the industry's best and most comprehensive interconnect solutions worldwide.

Thank you,

Werner Widmann
President
Multek
